

10-20-10

What is 10-20-10 you might ask? Well it's simple. 10-20-10 is our code for homework. That's right - homework! We are asking that our third graders do 10 minutes of math, 20 minutes of reading, and 10 minutes of spelling homework each night.

Your child will bring his/her planner home each night. We will have listed what is needed to be done for 10-20-10 if there is anything special that we are working on. If nothing is listed I expect your child to work on reading, math, and spelling.

Reading - Read anything, library book, AR book...

Math - Math flashcards, review book, computer activities...

Spelling - weekly spelling words, word work (example: Use the newspaper find words with endings.)

I am asking that you please help us out by asking your child to look at his/her agenda book each night.

******When your child has completed the entire 40 minutes of homework please sign the planner on that day's date.******

I know this may be inconvenient for you at times, but I believe that it is vitally important for you, and I both, to encourage your child to develop good study habits at home.

Thanks for your help,

Mrs. Reis

Here's a tip!
Study for 10 minutes,
and then take a break
before you do the
next thing.
